**Attachments:** Developmental and Reproductive Effects in Animals (from 100212 hazard doc) clean 4-9-13.docx

Hi Barbara, The HERO team is in the midst of updating my references, but now I'm having problems loading the latest version of the HERO database into EndNote via LitCiter so I can fix the remaining HERO links in the text. If it's not one thing, it's another. I keep spending time on this and accomplishing very little (i.e., spinning my wheels). So at this point, I think we might as well just drop this section (as it is) into the rest of the dev/repro hazard section. Send the combined version to Andrew, as we had discussed. Then I'll fix the references and revise the lit search section as soon as I am able. Sue
